Dexmed has been serving the medical industry with an extensive line of Cardiology, Radiology, and Surgical products since 1987. Our standard and advanced products are designed to solve many of your diagnostic, interventional and surgical needs.

We pride ourselves on being able to supply you a wide range of products from a variety of manufacturers assuring you of several advantages:

1-Sourcing from various manufacturers assures you of the components of your preference that meet your individual needs, not just what one manufacturer has to offer.

2-Our wide range of products and manufacturers enables you to meet many of your product requirements from one source, saving you time from multiple purchase requisitions and salesperson visits.

3-Dexmed's volume purchasing, variety, of manufacturers, and selection of products, assures you of the most competitive pricing.

If there is anything we can do to provide you with better service, if you have questions, comments or complaints, we would be grateful to have you call us toll free and let us know.
