

Custom Packs

DEXMED was established through the production of standard and custom trays. Today, a majority of our business remains concentrated in kit and tray packing production.

Our custom packaging capabilities and product sourcing assures you of the package **you** want, with the components **you** want, at the price **you** want.

Procedure Ready Packs

Standard Trays

DEXMED was established through the production of standard and custom trays. Today, we have more standard trays than ever.

Our standards include trays for Basic skin prep, Biopsy trays, Arthrogram, Myelogram, IV start Kits, Suture/stapel removal kits and more.
